## 1. What Terms and Conditions Apply to my Vodafone Business Advance BYO Plan and Vodafone Business Advance Plan Products?

- a. This document sets out terms and conditions that apply to specific Vodafone contracts and products (collectively, “the **Products**”).
- b. The terms and conditions that will apply to your Product or Products are:
  - i. all the terms and conditions provided to you when you agree to purchase a Product, including the terms and conditions contained in this document, terms and conditions which are available online and which are identified as applying specifically to any element of your Plan, and any terms and conditions contained in any application form you complete when purchasing a Product; and
  - ii. all the terms and conditions contained in the Vodafone Standard Form of Agreement (**SFOA**), which is available at [vodafone.com.au](http://vodafone.com.au), (collectively, the “**Terms**”).
- c. When you agree to purchase a Product, you accept the Terms. Your contract with Vodafone commences on your acceptance of the Terms.
- d. Some Products have a minimum contract term. If your contract is terminated before the end of this term, you may be required to pay fees, such as an Early Exit Fee or a Handset Recovery Fee. Depending on the Product, this may be in addition to any applicable handset payments and additional or excluded call, data or service costs. Early Exit Fees are set out in the pricing table for your Product.
- e. Activation of your Product may occur after your contract has commenced. Any minimum contract term that applies commences when your Product is activated.

- b. The Products are only available to credit approved customers with an ABN or ACN.

- d. “Unlimited” or “Infinite” voice and text offerings in the Products are only for standard person-to-person national calls and standard TXT (excludes premium and special numbers) all when made within Australia. So to use these offerings all you have to do is make sure you’ll be talking to another person, or using your fingers to TXT them. These offerings are not for you if you plan to do any of the following: multiple simultaneous calling, re-supply, call centre usage, telemarketing, bulk messaging, application-to-person communication, continuously call forwarding, auto-dialing, machine to machine communication (including by using your SIM in any other device), Cellular Trunking Units (CTUs), or any other activity which does not involve standard person-to person national calls and standard TXT (Non-Standard Usage).
- e. Data offerings for the Products are only for standard access in Australia to data directly from your mobile device and only for your individual use. The offering is not for you if you plan to do any of the following: using encryption for the purposes of bypassing tethering detection; using any Application that is designed to avoid tethering detection for the objective of bypassing speed controls; or any other activity which does not involve standard individual data usage (Non-Standard Data Usage).
- f. ## Factors affecting availability and performance

- a. Network coverage and many other factors may affect the availability and performance of certain Products.
- b. Certain Products services and functions are only available if used in conjunction with a compatible mobile or other device and if in a compatible coverage area. Not all devices are compatible with Vodafone networks.
- c. Broadband service: Some Vodafone 4G, 3G+ and 3G services are mobile broadband, internet, email, apps, downloading, video streaming and video calling. You can use Vodafone 4G if you have an eligible phone plan and have been switched over to the 4G network. To use 4G and 3G+ you'll also need a compatible device and be in a selected major metropolitan area. Outside these areas, you can still get Broadband Speeds in our 3G areas with the right device. To check this, make sure your device is compatible to the network zone you are in (U2100MHz, U850MHz or U900MHz). Remember that actual speeds you reach will vary depending on things like device capabilities, location, network congestion, network coverage and if you are roaming. Broadband Speeds not available in any 2G area. See [vodafone.com.au/coverage](http://vodafone.com.au/coverage) for coverage. You agree to refer to [vodafone.com.au/coverage](http://vodafone.com.au/coverage) for coverage details and [vodafone.com.au/devicefrequency](http://vodafone.com.au/devicefrequency) for details of devices and their frequencies before purchase, so that you can confirm that for your intended use of the services, your address/es are located in the appropriate Vodafone coverage areas and that the device you wish to select is compatible with the Vodafone coverage area where your address/es are located.
- d. If from time to time we provide additional Services in Australia, where you may Roam on a network in a Non-Vodafone Coverage Area, we may also restrict the availability or the speeds of some Services, such as Data Services, in the Non-Vodafone Coverage Area. To see the Vodafone Coverage Areas covered by the Vodafone Network please go to <http://www.vodafone.com.au/network/coverage-checker>.
- e. The Terms contain details regarding device compatibility, network capability and availability when using our Service.

## PIN Security

- a. You will be issued a Primary Account PIN. You must keep this Primary Account PIN confidential and must not disclose the Primary Account PIN to any other person, including those who are entitled to be connected to your Product(s). Doing so will compromise privacy across the entire range of connections to your account (for example, the call records, usage information of each connection to your Product(s) may become visible and accessible by all other users in the group if the Primary Account PIN is shared). Disclosure of your Primary Account PIN may also compromise the security of sensitive information such as credit card details, and will allow those with access to the PIN to, amongst other things, add or change services connected to your account and/or purchase additional hardware.

## Sharing

- a. All Business Advance BYO Plan Products and Business Advance Plan Products (**Advance Products**) are not eligible for sharing, meaning they do not allow you to share your Plan inclusions with any other Plan.
- b. Similarly, if you already have a Vodafone Postpaid Voice Plan released on or after 2 September 2016 or a Vodafone Business Flex (Voice) Plan or a Vodafone Business Flex Mobile Broadband Plan (**Eligible Sharing Products**) and you purchase an Advance Product, you will not be able to share your Eligible Sharing Products inclusions with your Advance Product inclusions or vice versa.
- c. If you do have both an Eligible Sharing Product and an Advance Product these will operate as separate accounts and you will receive a separate bill for each account. There is more information under Section 2 - 'Billing'.

## Data Services

- a. For Products that provide data access capabilities, a data session:
  - i. **starts** when you begin internet activity, either directly or indirectly\* on your mobile device; and
  - ii. **ends** when your data connection is lost. This will happen when:
    - a) you turn your mobile device off;
    - b) turn your data connection off;
    - c) switch to flight mode;
    - d) when you lose network reception; or
    - e) your mobile device has not sent or received data for a period of time.

# Terms & Conditions: Vodafone Business Advance Plans

\*Direct internet activity is when you prompt your mobile device to send or receive data from the internet. For example; when you send an email. Indirect internet activity is when your mobile device or mobile applications are set up to send or receive data from the internet on your behalf. Examples include (but are not limited to): Email notifications via Gmail, notification of Tweets or Facebook posts which mention you and software or weather updates.

- b. When using data services, some internet services, including web sites and email, may not be accessible.
- c. Subject to your rights under the Competition and Consumer Act 2010 or other relevant legislation (including the Australian Consumer Law), Vodafone does not make any warranty regarding any software or data provided or available to you in connection with data services, including with respect to how that software or data operates on your device or interacts with applications.
- d. Unless otherwise stated, data usage is measured as the combination of both data you send (upload) and receive (download).

## Rates and charges

- a. Details of the rates and charges, including any minimum spends which apply to the Products are contained in the Terms. The minimum total cost over contract term is calculated by multiplying the minimum monthly spend by the contract term.
- b. The Products feature a Plan Allowance which is made up of:
  - i. An Included Data allowance;
  - ii. A Your Max Speed data allowance;
  - iii. An "Included International Minutes" allowance (on selected Plans only); and
