## 2. Postpaid and Prepaid Products, and the Terms

- (a) Vodafone customers can purchase both “Prepaid Products” and “Postpaid Products” from Vodafone. These Product types are explained in this section.
- (b) “Prepaid Products” are purchased entirely in advance, and provide you with a specified amount of credit that you can use on Vodafone Products and services.
- (c) “Postpaid Products” are purchased by issuing you with a bill for Vodafone Products and services that you have already used, or that you have agreed to pay a specified regular amount for. Postpaid Products are usually (although not always) wholly or partly paid in arrears.
- (d) The Terms that apply to you vary depending on whether you purchase a Prepaid Product or a Postpaid Product.

### 3. Important Things You Need to Know

- (a) The Vodafone contracts and products referred to in the Terms (**Products**) must be used for personal use only, and are not available to medium to large business/corporate and commercial customers. Medium to large business/corporate and commercial customers should contact Vodafone for information about Vodafone's business products.
- (b) The Products are available to eligible customers and, for Postpaid Products, credit approved customers, only.
- (c) Unless otherwise stated, only one MBB Product can be used per connection to our network.
- (d) Vodafone's fair use policy applies to all Vodafone Prepaid Products.

#### Factors affecting availability and performance (Prepaid Products and Postpaid Products)

- (a) You must have a compatible Device and a valid Vodafone Micro/Nano-SIM inserted in your Device to use your MBB Product.
- (b) Network coverage and many other factors may affect the availability and performance of certain Products.

A compatible 3G device is required to access 3G services. Vodafone 3G works on three different 3G network zones: U2100MHz, U850MHz and U900MHz. You can reach Broadband Speeds within these areas when you have a handset which is compatible to that particular zone/s. Broadband Speeds not available in any 2G area. Actual speed achieved varies depending on factors such as device capabilities, location & network congestion. See [vodafone.com.au/coverage](http://vodafone.com.au/coverage) for coverage.

- (e) The Terms and brochures describing Products contain details regarding device compatibility, network capability and availability relating to the "Vodafone" network. However, notwithstanding anything else in our contract with you, we may provide services to you using any telecommunications network we consider appropriate and that network will constitute "our network" for the purpose of the Terms, including (but not limited to) the "Vodafone" network operated by, for or on behalf of Vodafone Network Pty Limited. For more information about the network, see the coverage map available at [www.vodafone.com.au/coverage](http://www.vodafone.com.au/coverage)

- (d) Unless otherwise stated, if you do not use all your included value in the relevant month, that included value is forfeited, is not refundable, and will not carry over into any other month.
- (e) Each charge is rounded up to the nearest cent before GST is included.

  - (a) the current recharge you have purchased or;
  - (b) the recharge period you are still within (for example, if you purchase and successfully activate a recharge which has 365 days expiry and then, 30 days later, you purchase and successfully activate a Recharge with 30 days expiry, your entire remaining data balance will expire in 335 days)
