2. Important Things You Need to Know

Availability

- a. The Products are for personal or small to medium business use only, and are not available to large business/corporate and commercial customers. Large business/corporate and commercial customers should contact Vodafone for information about Vodafone's business products.
- b. "Unlimited" or "Infinite" offerings in the Products are only for standard person-to-person national calls and standard TXT (excludes premium and special numbers) all when made within Australia. So to use these offerings all you have to do is make sure you'll be talking to another person, or using your fingers to TXT them. These offerings are not for you if you plan to do any of the following: multiple simultaneous calling, re-supply, call centre usage, telemarketing, bulk messaging, application-to-person communication, continuously call forwarding, auto-dialing, machine to machine communication (including by using your SIM in any other device), Cellular Trunking Units (CTUs), or any other activity which does not involve standard person-to person national calls and standard TXT (Non-Standard Usage).
- c. Vodafone reserves the right to determine other activities to be Non-Standard Usage, where such activities are of a commercial nature and/or do not involve standard person-to person national calls and standard TXT that Vodafone considers to be non-standard usage.
- d. The Products are available to credit approved customers only.
- e. Unless otherwise stated, only one Vodafone Plan Product or one Vodafone Red Product can be used per connection to the Vodafone network

Factors affecting availability and performance

- a) Network coverage and many other factors may affect the availability and performance of certain Products.
- b) Certain Products, services and functions are only available if used in conjunction with a compatible mobile or other device and if in a compatible coverage area. Not all devices are compatible with Vodafone networks.
- c) Broadband service: Some Vodafone 4G, 3G+ and 3G services are mobile broadband, internet, email, apps, downloading, video streaming and video calling. You can use Vodafone 4G if you have an eligible phone plan and have been switched over to the 4G network. To use 4G and 3G+ you'll also need a compatible device and be in a selected major metropolitan area. Outside these areas, you can still get Broadband Speeds in our 3G areas with the right device. To check this, make sure your device is compatible to the network zone you are in (U2100MHz, U850MHz or U900MHz). Remember that actual speeds you reach will vary depending on things like device capabilities, location & network congestion. Broadband Speeds not available in any 2G area. Actual speed achieved varies depending on factors such as device capabilities, location & network congestion. See vodafone.com.au/coverage for coverage. You agree to refer to vodafone.com.au/coverage for coverage details and vodafone.com.au/devicefrequency for details of devices and their frequencies before purchase, so that you can confirm that for your intended use of the services, your address/es are located in the appropriate Vodafone coverage areas and that the device you wish to select is compatible with the Vodafone coverage area where your address/es are located.
- d) The Terms contain details regarding device compatibility, network capability and availability relating to the "Vodafone" network. However, notwithstanding anything else in our contract with you, we may provide services to you using any telecommunications network we consider appropriate and that network will constitute "our network" for the purpose of the Terms. For more information about the "Vodafone" network, see: <http://www.vodafone.com.au/personal/services/coverage/>

Terms & Conditions: Vodafone Postpaid Plans

Sharing

- a. All Vodafone Red Products, Vodafone Red SIM Only 12 or 24 month Plan Products, Vodafone Qantas Red Plan Products and Vodafone Qantas Business Red Plan Products (Eligible Sharing Products) are able to support sharing on one billing account (Sharing Group).

When a second Eligible Sharing Product is added to an existing Eligible Sharing Product on the same billing account the two products will automatically form a Sharing Group. A Sharing Group can have up to 10 Eligible Sharing Products.

- b. The data allowances of Sharing Group will automatically combine into one pool which will be shared between eligible users. Any included international minutes will also combine into one pool, however the countries available to call specific to each Eligible Sharing Product do not share and remain set for that eligible user as per the rules of each specific Eligible Sharing Product.
- c. The Account Holder of an account with an active Sharing Group has visibility of the full account usage details of the entire Sharing Group, including itemized details of all call, text and data usage.
- d. Only the Account Holder, who is the custodian of the PIN number for the account, can make changes to the account (including adding, removing or changing Eligible Sharing Products, or adding/removing any Add-Ons to the account).
- e. Users of an Eligible Shared Product in a Sharing Group who are not the Account Holder can:
 1. View their personal account usage details;

 3. Receive Spend Alerts relating to the aggregated usage of the Sharing Group ; and
 4. Trigger excess usage charges and the Daily Charge for the \$5 Roaming service.

Terms & Conditions: Vodafone Postpaid Plans

Data services

- a) For Products that provide data access capabilities, a data session:
 - i. **starts** when you begin internet activity, either directly or indirectly* on your mobile device; and
 - ii. **ends** when your data connection is lost. This will happen when:
 - a. you turn your mobile device off;
 - b. turn your data connection off;
 - c. switch to flight mode;
 - d. when you lose network reception; or
 - e. your mobile device has not sent or received data for a period of time.

* Direct internet activity is when you prompt your mobile device to send or receive data from the internet. For example: when you send an email. Indirect internet activity is when your mobile device or mobile applications are set up to send or receive data from the internet on your behalf. Examples include (but are not limited to): Email notifications via Gmail, notification of Tweets or Facebook posts which mention you and software or weather updates.

b) When using data services, some internet services, including web sites and email, may not be accessible.

c) Subject to your rights under the Competition and Consumer Act 2010 or other relevant legislation (including, but not limited to, the Australian Consumer Law), Vodafone does not make any warranty regarding any software or data provided or available to you in connection with data services, including with respect to how that software or data operates on your device or interacts with applications.

d) Unless otherwise stated, data usage is measured as the combination of both data you send (upload) and receive (download).

Rates and charges

- a) Details of the rates and charges, including any minimum spends which apply to the Products are contained in the Terms. The minimum total cost over contract term is calculated by multiplying the minimum monthly spend by the contract term.
- b) Vodafone Red Products, Vodafone Red SIM Only Products, Vodafone Qantas Red Products and Vodafone Qantas Business Red Products feature a Plan Allowance which is made up of an Included Data allowance, an "Included International Minutes" allowance (on selected plans only) and an "Infinite" allowance (which provides you with infinite access to many (but not all) services available from Vodafone - see Section 4 below for full details)..
- c) If usage of a Product exceeds any part of your Plan Allowance, or you use a service that is not payable from your Plan Allowance, you will be charged an amount additional to your minimum monthly spend.
- d) Unless otherwise stated, if you do not use all your included Plan Allowance in the relevant month, any remaining Plan Allowance is forfeited, is not refundable, and will not carry over into any other month.
- e) Once your Included Data allowance has been exhausted, any additional data usage in that billing month will be charged in blocks of 1GB for a cost of \$10 per block (Additional Data). Additional Data blocks will be triggered both in Australia and in Eligible Countries (if you have opted-in to \$5 Roaming). There is no limit to how many Additional Data blocks you can trigger. For example, if your plan has 1GB of monthly Included Data but you use a total of 3.5GB of data in that month, you will be charged \$30 in Additional Data charges (as you have triggered 3 x 1GB Additional Data blocks). Any unused Additional Data is forfeited at the end of the billing

Terms & Conditions: Vodafone Postpaid Plans

month and is unable to be rolled over, transferred, exchanged or redeemed for cash. Charges for Additional Data cannot be paid from your Vodafone Red Plan Product, Vodafone Qantas Red Plan Product, Vodafone Qantas Business Red Plan Product or Vodafone Red SIM Only Product's Plan Allowance and will be charged on top of your minimum monthly spend. If you have a Vodafone Data Add-on Product that you purchased prior to 2 July 2014 but you sign up to a Vodafone Red Plan Product, a Vodafone Qantas Red Plan Product, a Vodafone Qantas Business Red Plan Product or a Vodafone Red SIM Only Plan Product on or after 2 July 2014, you agree that the Additional Data rate will apply to your usage, and not any other rate for excess data that has previously applied on your existing Vodafone Data Add-on Product until that point. For the avoidance of doubt, if your account includes a Sharing Group, any member of that Sharing Group can trigger the Additional Data charge, but all Additional Data allowances will then be shared amongst the Sharing Group as normal.

- f) Some Vodafone Red Plan Products, some Vodafone Red SIM Only Plan Products, some Vodafone Qantas Red Plan Products and some Vodafone Qantas Business Red Plan Products include an International Minutes Allowance which can be used to make standard international voice calls to the countries listed at www.vodafone.com.au/internationalcountries (Selected Countries and/or Super 1000 Countries) (see Section 4 below for details on which plans include an International Minutes Allowance). The following terms apply to international calling:
- (i) If your Vodafone Red Plan Product, Vodafone Red SIM Only Plan Product, Vodafone Qantas Red Plan Product or Vodafone Qantas Business Red Product **does not** have an International Minutes Allowance and you make a standard voice call to one of the Selected Countries, you will be automatically charged \$6, which will provide you with an allowance of 60 minutes of standard voice calls to be applied across any of the Selected Countries (**Auto International Minute Blocks**). The Auto International Minute Blocks will recur automatically whenever the 60 minute allowance is exhausted. All calls are charged in per minute increments.
 - (ii) If your Vodafone Red Plan Product, Vodafone Red SIM Only Plan Product, Vodafone Qantas Red Plan Product or Vodafone Qantas Business Red Product **does** have an International Minutes Allowance, then once this International Minutes Allowance has been exhausted, if you make any additional standard international voice calls to a Selected Country in that billing month then the Auto International Minute Blocks will automatically apply on a recurring basis as described in clause f(i) above. All calls are charged in per minute increments.
 - (iii) For any standard voice calls made to a country that is not a Selected Country or Super 1000 Country (and for customers with a Vodafone Qantas Business Red Product on their account, for any voice calls made to any additional countries included in a Primary Plan purchased prior to 29 June 2016), standard international charges apply – see Section 4 below for services that are or are not included in your Plan Allowance and the rate at which additional and excluded services will be charged.
 - (iv) Auto International Minute Blocks will be triggered both in Australia and in Eligible Countries (if you have opted-in to \$5 Roaming).
 - (v) There is no limit to how many Auto International Minute Blocks you can trigger. For example, if your plan has 150 minutes of monthly included standard international voice calls to Selected Countries but you use a total of 300 minutes of international calling to one or more of the Selected Countries in that month, you will be charged \$18 in additional international calling charges (as you have triggered 3 x \$6 Auto International Minute Blocks). For the avoidance of doubt, if your account includes a Sharing Group, any member of that Sharing Group can trigger an Auto International Minute Block but there are some restrictions around how the included minutes can be shared (refer to the paragraph titled "Sharing" in Section 2 – Important Things You Need to Know)
 - (vi) Any unused International Minutes Allowance and/or Auto International Minute Blocks are forfeited at the end of the billing month and are unable to be rolled over, transferred, exchanged or redeemed for cash.
 - (vii) Charges for Auto International Minute Blocks cannot be paid from your Vodafone Red Plan Product, Vodafone Qantas Red Plan Product, or Vodafone Red SIM Only Plan's Plan Allowance and will be charged on top of your minimum monthly spend.
 - (viii) The Selected Countries and Super 1000 Countries may change from time to time. The current full list of countries can be found at www.vodafone.com.au/internationalcountries. Vodafone will provide

Terms & Conditions: Vodafone Postpaid Plans

reasonable notice on this website of any changes to the Selected Countries.

- g) Unless otherwise stated, Section 4 below titled "Vodafone Rates: What is included in my Product's Plan Allowance?" specifies which services are or are not included with your included Plan Allowance and the rate at which additional and excluded services will be charged. Each charge is rounded up to the nearest cent before GST is included.
- h) Unless otherwise stated, rates specified for services are GST inclusive.
- i) Unless otherwise stated, call usage is billed in blocks of 60 seconds increments. Usage is rounded up to the end of the current increment.
- j) Unless otherwise stated, data usage is charged in per kilobyte blocks.
- k) All rates and charges are subject to change. Vodafone will comply with relevant regulations and industry codes with respect to such changes.

Billing

- a) In your first bill, you will be charged your minimum monthly spend for the following month. Your first bill may also include a prorated amount from the date you connected to your first bill.
- b) For accounts with a Sharing Group, only one bill will be issued to the Account Holder which will reflect all Eligible Sharing Products.
- c) You may choose to purchase additional Products from time to time. Charges for these Products will be applied to your bill.
- d) Paperless billing is the default bill delivery method for Vodafone customers.
- e) Vodafone will provide paper bills without charge to disabled or disadvantaged customers. Otherwise, Vodafone will not provide paper bills except in special circumstances, in which case, at its discretion, Vodafone may charge \$2.20 per paper bill.

Checking your usage

Check your call, TXT and data use here and overseas at myvodafone.com.au or call us for free from your Vodafone Mobile on 1555 (when in Australia) or +61 426 320 000 (when overseas). For Sharing Groups, the Account Holder may access individual usage of Eligible Shared Product users, and may also see overall usage on the account.
