However, notwithstanding anything else in our contract with you, we may provide services to you using any telecommunications network we consider appropriate and that network will constitute "our network" for the purposes of the Terms. - b) You may choose to purchase additional Products from time to time. Charges for these Products will be applied to your bill.
- c) Paperless billing is the default bill delivery method for Vodafone customers.
- d) Vodafone will provide paper bills without charge to disabled or disadvantaged customers. Otherwise, Vodafone will not provide paper bills except in special circumstances, in which case, at its discretion, Vodafone may charge \$2.20 per paper bill.

### International Roaming

- (a) By purchasing a Vodafone Red Business Shared Plan Product, you accept the Vodafone International Mobile Roaming terms and conditions, which are available at [vodafone.com.au/roaming](http://vodafone.com.au/roaming).
- (b) All Vodafone Red Business Shared Plan Products are pre-activated for Red Roaming. This means that unless you opt-out of Red Roaming, individual connections on your Vodafone Red Business Shared Plan account can access your Included Value and Included Data while overseas if they are roaming in selected Eligible Countries. In return for this service, for every connection to your account that performs a Trigger Event in an Eligible Country on any given day, we will apply the Daily Charge to your account (for details on the Daily Charge and Eligible Countries – go to [Vodafone.com.au/roaming](http://Vodafone.com.au/roaming)).

- (d) Vodafone Red Business Shared Data SIM Products are not eligible for Red Roaming. ### Checking your usage

Check your call, TXT and data use here and overseas at [myvodafone.com.au](http://myvodafone.com.au) or call us for free from your Vodafone Mobile on 1555 (when in Australia) or +61 414 141 414 (when overseas).

### PIN Security

- (a) You will be issued a Primary Account PIN. You must keep this Primary Account PIN confidential and must not disclose the Primary Account PIN to any other person, including those who are entitled to be connected to your Product(s). Doing so will compromise privacy across the entire range of connections to your account (for example, the call records, usage information of each connection to your Product (s) may become visible and accessible by all other users in the group if the Primary Account PIN is shared). Disclosure of your Primary Account PIN may also compromise the security of sensitive information such as credit card details, and will allow those with access to the PIN to, amongst other things, add or change services connected to your account and/or purchase additional hardware.
